PROFESSIONAL HISTORY

Driven professional with focus on quality and team leadership, combining strong problem-solving abilities and excellent communication skills. Demonstrates capability in process improvement and team development. Committed to fostering culture of quality and continuous improvement to achieve outstanding results.

WORK HISTORY

Quality Control Inspector: January/2023 -Current **Alfanar Electrical Systems -**Riyadh, Saudi Arabia

- Developed the control plan for the complete product process and conduct the training sessions for other department employees
- Monitor and control the CTP and CTQ process based on control plan methods
- Analysed failure modes in line with Failure Mode & Effects Analysis (FMEA) framework to tackle recurring faults.
- Conduct a Process audits to improve the quality in production activities to deliver the zero-defect product for customer
- Implement a quality alert and one point lesson to create an awareness about quality defects to the production employees
- Create a sample evaluation report for new supplier items to get the approve based on dimensional, assembly and functional verification
- Validated test methods, confirming compliance with applicable standards.
- Analysed quality control data to identify trends and areas for improvement, contributing to continuous process optimisation
- Prepared detailed inspection reports, documenting findings and recommending corrective actions to improve product quality.
- Used detailed calibration equipment accurately to inspect precision machined components.
- Detected and raised non-conformances within goods-in inspections.
- Coordinated with engineering teams to update product specifications and inspection criteria based on quality feedback and analysis.
- Facilitated cross-functional team meetings to discuss quality performance metrics, fostering a culture of continuous improvement.
- Verified incoming materials and production products met specifications and approved deliveries.
- Reviewed and approved quality documentation, ensuring compliance with ISO 9001 and other relevant quality management systems.
- Developed and maintained quality control checklists for various stages of production, streamlining the inspection process.
- Monitored production processes to identify deviations from quality standards, initiating immediate corrective measures.
- Led training sessions for new staff on quality inspection techniques and company quality standards, improving team competence.
- Collaborated closely with production teams to identify root causes of quality issues, leading to timely and effective resolutions.

- Completed accurate product measurements products using rulers, calliper's, gauges and micrometres.
- Recorded findings from inspections to determine quantities of defects and maintain accurate documentation.
- Quickly learned and applied new skills to daily tasks, improving efficiency and productivity
- Reduced process inefficiencies by identifying bottlenecks using root cause analysis techniques.
- Collaborated with cross-functional teams for effective problem-solving during the validation process.
- Maintained high quality standards by regularly supervising inspection processes.
- Developed proficient skills in Microsoft Office Suite for efficient task completion.
- Created detailed reports using Microsoft Office Suite for informed decision making.

- **Electrical Quality Assurance:** March 2022- January-2023 — **Coral Manufacturing (Enercon)-** Erode, Tamil Nadu
- **Testing Technician:** October 2021 - March 2022 — **Vestas Wind Technology-** Chennai, India
- **Production Technician:** June 2019 – October 2021 — **KK Wind Solutions-** Bangalore, India

SKILLS

- Microsoft Office proficiency
- Strong Communication skills
- Conformity inspections
- Knowledge of as 9100standard
- Conduct Trainings
- Quality Inspection Planning
- Inspection techniques
- Process validation
- Kaizen improvements
- Quality improvements
- Problem-solving
- Leadership
- Root Cause Analysis (RCA) methodology
- 5 Why's analysis
- 8D Problem Solving
- 5M Analysis

CERTIFICATION

- Lean Sig Sigma Green Belt, AIGPE (Udemy), Present
- Root Cause Analysis 5 Why's Diagram, Udemy, 11/2024
- Root Cause Analysis 8d, FMEA, Fishbone Diagram, Udemy,05/2025
- Microsoft Office Using AI, Skillnation,05/2025

EDUCATION

Diploma: Electrical and Electronics Engineering — **Al Ameen Polytechnic College**, Erode, Tamil Nadu, India.

Grade: First Class with Distinction — **Year**: 2016-2019.

Field of Study: General — **Govt Hr Sec School**, Tamil Nadu, India.

Grade: First Class — **Year**: 2015-2016.
